FS395 Series
Stretch Wrapping Machines
400% Power Pre-stretch

FS395 Series

The FS395 series includes a 2-motor powered carriage, pre-stretching up to 400%, for ease of operation. The extremely flexible wrapping programs and ultra fast film roll changing system at working height have all been characteristic of the FROMM FS395 and its predecessors for more than 20 years.

FROMM's durable design, high quality and low maintenance have kept the FROMM machines amongst the best in the world in film wrapping.

The FS395 offers a new, modern touchscreen Operating Panel (OP) with optional film roping and cutting features.

400%, 2-motor Power Pre-stretch

- Easy to set, between 100% and 400% pre-stretch, with an additional film tension program, ensuring you get the right film quantity and film tension onto your package. The high and variable pre-stretch capability enables you to optimize film consumption, load stability and product protection. It can even wrap at turntable level, stabilizing your load, including the pallet.
- The combination of 2-motor Power Pre-stretch and an extensive programmability, allows you to set up the machine in such a way that even with extremely sharp corners and an average film quality, no break or tear will occur. Ensuring optimum reliability and financial efficiency.

Standard technical features

- State of the Art touch screen Operating Panel with clear images for easy and flexible programming
- Power supply: 230V, 50/60Hz, 1 phase,
- Maximum pallet weight: 2.000 Kg. (4,409 lbs)
- Standard turntables Ø: 1.650, 1.800 and 2.200 mm. (5.4, 5.9, and 7.2 ft.)
- Max. pallet heights: 2.500 and 3.000 mm. (8.2 and 9.8 ft)
Other pallet heights available upon request
- Soft start & stop in 0-position - 90, 180 and 270 degrees
- Audio signal at start of cycle
- Laser sensor for pallet height detection.
Reading black and "transparent" loads
- Frequency controlled turntable speed
- Frequency controlled upward/downward film carriage speed
- Counter of film consumption and number of wrapped pallets
- Program locking feature, with password, for consistent wrapping
- Adjustable pallet foot programming for extra stability of goods, at different heights

Ultra-modern Touch Screen Operating Panel

- With secure code lock and graphic display
- For machine settings, operation and service information
- Setting film tension and pre-stretch at 4 sectors
- Setting turntable speed at 4 sectors
- Controlling upward and downward speed of the film carriage
- Managing film overlap
- Banderol positions for extra stability
- Multi layer programming
- Pallet foot programming
- 30 Free programs, with 4 special functions
- Easy error read out

Ultra-fast film inlay system

Film roll change, open structure

FROMM | WRAPPING SOLUTIONS

Ultra friendly human interface, touch screen Operating Panel (OP). For machine operation, settings and service information.

Electronically controlled end of cycle, film cutting system.

HD brushless motor drive with torque limiter

Electronically controlled roping system. "Endless screw", operated.

FS395 Series

We are always close to you

The FROMM employees are our most important asset. To guarantee the high level of expertise, Qualified FROMM specialists provide professional advice, fast service and reliable maintenance. FROMM operates globally through more than 40 own offices in Europe, North and South America, South Africa, India, Asia and Australia. As well as a range of +150 specialized long-term sales partners around the world. Wherever you are, FROMM can provide you with technical support, full maintenance service and fast deliveries from local warehouses.

Sustainability

The FROMM corporate sustainability rules apply to all modern FROMM products. They are constructed and assembled from top quality materials, that can easily be taken apart and recycled in separate dedicated recycle flows. Their durable design also shows in low maintenance requirements and very limited use of lubricants.

Quality is our business

FROMM is a Swiss family company with head quarters in Steinhausen, Switzerland. With over 75 years experience in the development, sales and service of a wide range of handheld tools and automated systems for securing and protecting transport loads; strapping, film wrapping and the Airpad® air cushion systems for extra protection of packaged products.

As a vertically integrated manufacturer of packaging equipment and associated consumables, FROMM has full control over all phases of the development process up to and including their production. All this results in an uncompromisingly reliable quality product with the brand name FROMM®. FROMM R&D facilities and factories are ISO certified.

The FROMM products world

Offers you high-quality well balanced end of line logistic packaging solutions. FROMM products are developed, manufactured and assembled in FROMM owned facilities across 4 continents.

Discover our entire product world in our separate brochures or speak directly with your local FROMM partner.

The FROMM Lifecycle Care program

Gives you that extra care, you want for your FROMM products. All FROMM companies offer their local customers the Lifecycle Care program for FROMM machines and tools. From the first consultation, installation and start-up, throughout the entire life cycle-with maintenance, delivery of spare parts and possible upgrades-you can use this program to keep your FROMM products in top condition, limit downtime to the minimum and extending its service life. Keeping your costs low and reliability high.

Ask your FROMM representative what the FROMM Lifecycle Care program can do for you.
